SUMMARY

Ambitious PHP Laravel Developer with 1.5 year of experience delivering enhanced web solutions. Successfully implemented and optimized three live websites using PHP Laravel, React JS, and Vue JS, demonstrating a commitment to operational excellence. Seeking a PHP Developer role to drive innovative web development through proficiency in PHP Laravel, React JS, and strategic technical skills.

EXPERIENCE

PHP Laravel Developer

Keylogic Infotech Private Limited   **February 2024 - June 2025, Sudama Chowk, Surat-395010**

· Developed and maintained **multiple production-level web applications** using **PHP** and the **Laravel framework**, ensuring clean code and efficient backend functionality.
· **Implemented and optimized three live websites** using a modern tech stack that includes **Laravel (PHP)** for backend and **React.js / Vue.js** for frontend, enhancing performance and user experience.
· Proactively **expanded backend expertise** by learning the **Django framework (Python)**, contributing to a broader full-stack development skillset.
· **Earned a Python certification**, reinforcing core programming concepts and showcasing commitment to continuous learning.

PROJECT

E-commerce Platform for Custom Headstone Design

Keylogic Infotech Private Limited · eternityheadstones.com/ · April 2025 - June 2025

· Developed a specialized e-commerce platform for **customizing and ordering headstones**, allowing users to either **create their own designs** or **browse and personalize pre-built templates**.
· Implemented an interactive design editor using **React.js**, **Next.js**, and **Fabric.js**, enabling users to add custom text, upload images, apply shapes, and preview designs in real-time.
· Focused on building **rich customization features** such as text utilities, image cropping, artwork upload, and background removal for clean visuals.

HRM (Human Resource Management) System — Backend Payroll Module

Keylogic Infotech Private Limited · hrm.keylogicinfotech.com/dashboard · November 2024 - April 2025

· Developed backend logic for **employee pay slip generation** using **PHP (Laravel)**, focusing on accurate overtime and salary calculations.
· Implemented flexible rules for **overtime start thresholds**, rounding logic.
· Modified **Saturday payroll handling**, ensuring full-day salary deductions for absences despite half-day schedules.

Corporate Website Development for a Company

Keylogic Infotech Private Limited · keylogicinfotech.com/new_theme · July 2024 - October 2024

· Designed and developed a professional company website using **PHP (Laravel)** and **Bootstrap**, focused on delivering a clean, responsive, and user-friendly interface.
· Created multiple dynamic pages such as About, Services, Contact, and Careers, with data managed via **Laravel Blade templates** and **controllers.**
· Ensured **mobile responsiveness and cross-browser compatibility** using Bootstrap.
